

Communist Party Of India (Maoist) North Coordination Committee (NCC)

Date: 28 Sept, 2026.

**Expose the right opportunist traitor Surrender alias Jalal and Sukhvinder
Kaur!**

Bury right opportunism in the soil of Punjab!

Hold high the red banner of Marxism-Leninism-Maoism!

Comrades and beloved peoples,

This is to inform that we have expelled Jalal and Sukhvinder kaur, while Jalal was the member of NCC that is our committee, Sukhvinder was the member of ex-soc of Punjab. Jalal joined NCC in 2024 but after the NIA raid in his house, he became inactive and stopped coordinating with us for the NCC work, therefore we demoted him to SOC level. We repeatedly persuaded Jalal and his partner Sukhvinder Kaur to work at least at the state level. We asked them to take the responsibility of the party work. But during these process they did not coordinate and after several persuasion when Jalal met, he affirmed that they will not be working under the leadership of our party. Apart from this following activities of theirs need to be noted:-

1) They encouraged the formation of anti-party landlord lead class collaborators group called Punjabnama. This was formed by the traitor Harmanpreet, along with the state agencies this organization is working to attack revolutionary mass organizations and their individual leaders. The only mandate of this organization is to attack us. Asin alias Gagan alias Aman the traitor who had written a letter to Venugopal urging him to surrender is working with the traitor Harman to strengthen this group. While Jalal and Sukhvinder are with Harman, working in such close coordination with the enemy forces they have moved away from the revolutionary camp to the camp of the enemy and that of the state agents.

2) Under the cover of left phrase-mongering, Jalal and his partner Sukhvinder are practicing right opportunist politics. Such is the height of this opportunism that despite claiming that they are with the party line they have not moved an inch on ug party building. On the contrary they are doing all that is under their power to stop the march of the party along the line of ug party building.

3) They violated the party discipline by not participating in the party structures for more than six months. And has formed an anti-party clique in name of Punjab- SOC.

4) They used the mechanism of spreading white terror against the party cadres and leadership; they spread terror against the politics of armed struggle; they keep warning their cadre that if you go with the party then the party will start armed struggle and will get you killed or imprisoned.

Comrade Lenin had said that opportunist are the enemy's agent within the party. How are they different from the enemy. They are traitor to the proletarian class in general and the party in particular. Our CC in 19-11-2017 had identified non proletarian trends of economism, legalism, reformism, bureaucracy in Jalal. These very serious trends developed into deviations and later into a parallel opportunist line and presently to liquidationism. Actually in Punjab state committee plenum of 2006 there emerged a minority group, the position of this group was that party program can not be implemented in Punjab since the geography of Punjab does not allow PPW. Raju was leading this argument. Jalal from the very beginning was convinced with this argument but could not take the courage and bold step to claim this line. While Raju is a honest opportunist, Jalal is the opportunist of dishonest order, therefore he kept on hiding his line. Comrade Mao said that the bourgeoisie fellow traveler deserts the party and revolution when he feels that his personal interest is hampered by the revolution, when Jalal and Sukhvinder realized that their interest is being hampered by being member of the party they liquidated it. This explains their inactivity after the NIA raid. Comrade Mao said "The error here consists in neglecting the fact that the bourgeoisie (and especially the big bourgeoisie) not only exerts an influence on the petty bourgeoisie and the peasantry, but does its utmost to influence the proletariat and the Communist Party in a strenuous effort to destroy their ideological, political and organizational independence, turn them into an appendage of the bourgeoisie and its political party, and ensure that it will reap the fruits of the revolution for itself or its political party alone; this error also consists in neglecting the fact that the bourgeoisie (and especially the big bourgeoisie) betrays the revolution whenever the revolution conflicts with its own selfish interests or with those of its own political party. To neglect all this is Right opportunism. The characteristic feature of Chen Tu-hsiu's Right opportunism was that it led the proletariat to accommodate itself to the selfish interests of the bourgeoisie and its political party, and this was the subjective cause of the failure of the First Great Revolution". This explains why all the liquidators from Punjab to UP are either from the upper section of petty bourgeoisie or directly from the ruling class and caste background. It's the class interest which decides ones commitment toward the party and movement. It suits the class interest of the petty bourgeoisie and also the ruling class to be hero at times when the movement was in the upstream but at our times what is needed is selfless service and faith toward the party and its political line which the egoistic feudal pettiness of the petty bourgeoisie and the ruling classes will not allow for.

Recently in one of the magazine named Nagada; Jalal and Sukhvinder who are its organizers directly attacked the party and asserted that party no longer exists. This is the language of the great renegade liquidator of comrade Lenin's time, Larin who said during the set back period of communist movement in Russia that there is no party left to be liquidated. Jalal and Sukhvinder have proved that they along with Seema Vishwavijay are the great grandson of Larin and his likes. We say that your this wish will never be fulfilled. Party can not be defeated, it will march ahead, for there is no power on this earth that can deny the scientific logical progression of society toward communism. Such is the inevitability of

the success of proletarian as a historic force and its party as a weapon to achieve the dictatorship of proletariat. Similarly your downfall, Jalal and Sukhvinder is inevitable, history will remember you as the dust which had to be wiped out in order to move ahead for a new beginning.

We appeal to all the comrades and revolutionary masses of Punjab to rise up the situation of third world war, carry forward the revolutionary rebellious tradition of the soil of Punjab and join the revolutionary tide under the leadership of our party. We should not forget that sikh gurus who were leading the armed guerrilla struggles against the feudal brahmanical landlords too had to retreat in order to attack more vigorously. Our party too is gaining its ideological and political strength in order to attack the enemy more vigorously and pave the shining path toward NDR, Socialism and finally to Communism. The people of Punjab understand this. They are with us and not with the capitulators.

Lastly, with this statement we want to declare that our committee that is NCC which was formed in accordance to the PB resolution of Nov, 2023 has hereby cleansed itself of all the liquidators and opportunist leadership of the older and higher order. We expelled the Chen Tu-hsiu of Delhi, Gopal Mishra; Chen Tu-hsiu of UP, Seema-Vishwavijay; Chen Tu-hsiu of Punjab, Raju, Jalal and Sukhvinder and Chen Tu-hsiu of Haryana Joginder Singh. We promise to keep struggling against opportunism-liquidation-revisionism and all its manifestations in order to restrengthen the Leninist party functioning and Maoist method of leadership in our party.
